

15th World Congress on Targeting Mitochondria 2024

October 29-31, 2024 – Berlin, Germany

List of Posters Presentations

Day 1 - October 30, 2024		
Num.	Presenting Author	Poster Title
1	AFOLABI, Paul	The Potential Clinical Utility of a Non-Invasive 13C-Breath Test to Assess Mitochondrial Capacity in Patients with Long Covid
2	ANDRIC, Andreas	Standardized Protocol for Measuring Nematode Respiration via Seahorse Flux Analysis
3	ASCHER, Claudia	Efficacy and Selectivity of Second-Generation FAHD1 Inhibitors in Breast Cancer 2D and 3D Models
4	BERONCAL, Erika Leigh	Utilizing Mitochondrial Haplogroups as a Potential Screening Tool for Risk of Primary Graft Dysfunction
5	BHAT, Yashvi	The Role of Lipids In Human IPSC - Derived Microglia, a Model of Neurodegenerative Stress
6	BRUNNER, Christina	The Protein Glycosylation Machinery in B Cells Controls Mitochondrial Function
7	BURSKA, Agata Natasza	Oxidative Drug Combination of Arsenic Trioxide and D-Vitamin C Induces Dysfunction of Mitochondria and Cytotoxic ROS Production
8	CHEN, Tingting	Investigating the Role of Mitochondria-Containing Extracellular Vesicles in Alzheimer's Disease
9	DALMASSO, Alessia	Identification of the Best Protocol for Mitochondria Isolation from Human Renal Cells
10	DÍAZ-GARCÍA, Mario	Mitochondrial Alterations in Fibroblasts from a Kufor-Rakeb Patient with Two Novel Mutations in ATP13A2
11	DURUKSU, Gokhan	Amadori Product, Fructoselysine, Alters Mitochondrial Function and Impairs Energy Metabolism in Human Beta Cell Line 1.1B4 Shifting to Glycolysis
12	EUN JUNG, Park	Metabolic Reprogramming in Chemically Induced Cardiomyocytes through Mitochondrial Transfer
13	FERKO, Miroslav	Proteomic Analysis of Mitochondrial Cardioprotective Responses to Reduced Oxygen Consumption: The Role of Dichloroacetate
14	GIORDANO, Luca	Adaptive Cellular Mechanisms in Cells with Mitochondrial DNA Mutations Induced by Defective DNA Polymerase γ Exposed to Cigarette Smoke Extract
15	HIMMELREICH, Ann-Kathrin	The Role of Oxphos during Early B Cell Development
16	HIROSE, Misa	Modulating Immunometabolism in Murine Primary Macrophages by Mitochondria-Targeting Nanocapsule, Mito-Porter
17	IVOVIC, Danica	The Study of the Impact of Hypoxia and Epigenetic Modulation on Mechanisms Involved in Resistance of Testicular Tumors
18	IŽARIK VEREŠPEJOVÁ, Andrea	Prospective Monitoring of Changes in Mitochondrial Respiration in Patients with Parkinson's Disease
19	KABELIKOVA, Pavlina	Genetic Changes in Mitochondria: A Potential Marker of Testicular Tumor Chemoresistance?
20	KAVANTZAS, Nikolaos	Impact of Chromosome 18 Numerical Imbalances on Mitochondrial BCL-2 Protein Expression in HPV-Positive Cervical Squamous Intraepithelial Lesions
21	KORONA, Wiktoria	Exploring Cellular Metabolism through Novel Light-Based Method Targeting Mitochondrial Activity in Live Endothelial Cells
22	KOVACIC, Svenja	The Effect of Mitochondrial Ca ²⁺ Abundance on Mitochondrial Function and Morphology in B Cells
23	KUBAT, Gokhan Burcin	The Effect of Mitochondrial Transplantation on the Covid-19 Associated Acute Respiratory Distress Syndrome
24	LAMAČOVÁ, Lucie Josefa	Effects of a Highly Hydrophilic Mitochondria-Targeted Iron Chelator
25	LIETZ, Christine	Protective Effects of Plant Extracts on Mitochondrial Dysfunction on Alzheimer's Disease
26	MARTINEZ-BERNABE, Toni	Oxidative Phosphorylation as a Predictive Biomarker of Oxaliplatin Response in Colorectal Cancer
27	MARTÍNKOVÁ, Stanislava	Pancreatic Cancer Cells Exchange Functional Ribosomes through Tunneling Nanotubes
28	MIN, Kyunghoon	Mitochondrial Transplantation: Latest Patent Analysis
29	MIROSEVIC, Vid	The Effect of High Glucose Concentration on the Expression of UPRmt Genes LONP1, OMA1, YME1L, HSPD1 and HSPA9 in Myocardial Samples of Patients with Heart Failure
30	MOHAMED YUSOFF, Abdul Aziz	The Role of COX4 in Glioblastoma: Exploring its Therapeutic Potential and Impact on Mitochondrial Function — A Preliminary Study
31	MOHR, Jacob	M.10010T>C Mitochondrial Disease: A Case Report with Hypocalcemia
32	ADISA, Rahmat Adetutu	Mitquinol Mesylate (Mito-MES) Prevented Diethylnitrosamine (DEN) Induced Hepatocellular Carcinoma via the Mitochondrial Apoptotic Pathway in Male Wistar Rats
33	FALVO, Sara	Mitochondria Functionality and its Interaction with Smooth Endoplasmic Reticulum in D-Aspartate-Treated Rat Testis
34	LAUDETTE, Marion	PCSK9 Regulates Mitochondrial Cholesterol Levels by Acting on the Degradation of the Mitochondrial Translocator Protein TSPO in the Heart
69		
71		

Day 2 - October 31, 2024		
Num	Presenting Author	Poster Title
35	MUHAMMADI, Muhammad khalid	AD-Tau Pathology Induces Mitochondrial Dysfunction in a Rat Model of Sporadic Alzheimer's Disease
36	NIELSEN, Simone Rask	Cardiovascular Autonomic Neuropathy in M.3243A>G Mitochondrial Disease
37	NOVA-LAMPERTI, Estefania	Mitochondria Transfer, A Potential Mechanism of CD4+T Cell Exhaustion in Oral Cancer
38	PANICO, Giuliana	Brown Adipose Tissue Mitochondria is a Target for the Rapid Effects of Ketone Bodies
39	PEREDA-VELARDE, Alba	Impaired Mitophagy in Huntington's Disease Striatal Astrocytes
40	PIANTANIDA, Ivo	Novel Intracellular Fluorimetric Probes for Organelles with Photoinduced Bioactivity
41	PLONER, Christian	Macrophage Polarization in Wound Healing Impacts on Adipose-Tissue Derived Stem Cell Metabolism and Mitochondrial Function
42	POLES, Maria	Mutant P53 Induces Mitochondrial Fragmentation in Pancreatic Ductal Adenocarcinoma (PDAC)
43	PONS, Daniel Gabriel	Mitochondrial Genes Expression Profile in Extracellular Vesicles of Bowel Lavage Fluid in Patients with Colorectal Cancer and Colonic Lesions
44	RASTOVIC, Una	Megamitochondria Formation in Primary Human Hepatocytes: A Pathway to Therapeutics for Alcohol-Related Liver Disease
45	REYNIERS, Joshua	Measuring Mitochondrial Morphology and Network Abberations in a Cellular Model of P301S Tauopathy
46	RODRÍGUEZ-PERIÑÁN, Guiomar	SORL1 Deficiency in Alzheimer's Patients: Impact on Mitochondria and Autophagy
47	ROSSI, Erica	A Putative Involvement of Telomerase Reverse Transcriptase in Mitochondrial Turnover
48	RYTCHENKO, Yana	Investigating the Role of FAHD1 Expression in Cellular Respiration in U2OS Cells
49	SCHERER, Melanie	Mitochondrial Function and other Important Parameters of Ageing are Improved by Caloric Restriction In Humans
50	SEEMANN, Leonie	Dietary L-Carnitine and Intravenous Lipopolysaccharides (LPS) Modify the Mitochondrial Functionality of Bovine Peripheral Blood Mononuclear Cells (PBMC)
51	SELLECK, Scott Brian	Decreasing Heparan Sulfate Biosynthesis Suppresses Neurodegeneration, Promotes Mitochondrial Function, Autophagy Flux and Regulates Lipid Metabolism
52	SPRINGETT, Roger James	Penetrance of Leber's Hereditary Optic Neuropathy in H And J1 Mitochondrial Haplogroups
53	ŠTUCIN, Neža	Mitochondrial Quality Control in Sjögren's Disease
54	STURGIS, Johnathon Brian	The Foundation of Decay: Modeling Aging Promoted Retinal Degeneration with Mitochondrial DNA Mutation Burden
55	TARCAN, Arda	3D Cell Culture Models to Study Mitochondrial Function in Airway Diseases
56	TELLERÍA, Francisca	Linking Myrcene to Tricyclic Hydroquinone Derivates Improves the Antiplatelet Potential by Regulating Mitochondrial Function
57	TESAŘOVÁ, Markéta	Sulfur Metabolism in Patients with Mitochondrial Diseases
58	TURKEL, Ibrahim	Exercise-Induced Changes in Mitochondrial Unfolded Protein Response in Rat Skeletal Muscle
59	UMBRASAS, Danielius	Gallbladder Mitochondria Function as a Prognostic Factor for Liver Transplantation Outcomes: A Pilot Study
60	VERUCCI, Delia	Cardiac Hypertrophy in Growth Associated Protein 43 Null Cardiomyocytes is Associated with Altered Mitochondrial Proteomic Profile
61	VILA SANJURJO, Antón	A New View on the Role of Mito-Ribosomal Fidelity on Human Disease: Structural Analysis of Deafness-Related mtDNA Variants Mapping to Mitochondrial rRNA Genes
62	WANG, Jong-Shyan	Effects of Supervised Exercise Training on Platelet Mitochondrial Bioenergetics in Hemodialysis Patients with End-Stage Renal Disease
63	WIETESKA, Malgorzata	Analysis of Phenotypic Changes in Drug Tolerant Cells - The Role of Mitochondria and STAT3 Signaling
64	ŽOCHOWSKA, Monika	Does BK Channel Affect Senescence - Mitochondrial Connection?
65	SCULTETUS, Anke	Variation in Mitochondrial Functions across Vital Organs and Brain Sub-Regions in a Swine Model: A Novel Reference Targets for TBI And Polytrauma
66	O'ROURKE, Nick	Gestational Physical Activity is Associated with the Altered Expression of Mitochondrial Markers in Term Placenta and Differs Based on Tissue Location
67	TARZAMI, Sima	CXCR4 and Mitochondrial Biogenesis
68	WANG, Jing	Targeting Mitochondrial Dysfunction to Improve Skin Aging through Bioactive Compounds
70
